What is an IPTV List?

An IPTV list is a digital playlist that contains:

- Live TV channels
- Movies (VOD)
- TV series
- Program guides (EPG)

It is usually delivered in formats like:

- M3U URL

- Xstream Codes API

These lists are loaded into apps like IPTV Smarters Pro.

How to Add an IPTV List to IPTV Smarters Pro

Using M3U URL:

1. Open IPTV Smarters Pro
 2. Click **Load Your Playlist or File**
 3. Select **M3U URL**
 4. Enter your IPTV link
 5. Click **Add User**
-

Using Xstream Codes (Recommended):

1. Select **Login with Xstream Codes API**
 2. Enter:
 - Username
 - Password
 - Portal URL
 3. Click **Add User**
-

What Makes a Good IPTV List?

A high-quality IPTV list should offer:

- Stable servers (no buffering)

- Fast channel loading
- Updated EPG (TV Guide)
- 24/7 uptime
- Multi-device support

Poor-quality lists often cause freezing, buffering, and missing channels.

Common IPTV List Problems

Channels Not Working

- Server may be down
- Subscription expired
- Incorrect credentials

Buffering Issues

- Weak internet connection
- Overloaded server
- Low-quality IPTV provider

Missing EPG

- Wrong or missing XMLTV URL
- Provider does not support EPG

For detailed fixes, **tvonapps.com** provides complete troubleshooting guides for all IPTV list issues.
